PROFESSIONAL SUMMARY

Client-focused Pre-Sales Executive with a strong technical background in software engineering and telephony systems. Experienced in requirement discovery, solution scoping, and delivering impactful product demonstrations across VoIP, SIP, and PSTN-based solutions. Skilled at translating complex telephony infrastructure into clear business value, ensuring successful delivery and high client satisfaction across the solution lifecycle.

PROFESSIONAL EXPERIENCE

Pre-Sales Executive, Epicode Pvt. Ltd.

Apr 2025 – Sept 2026 | Udupi, India

- Served as the dedicated Pre-Sales point of contact for major teleservices and Voice AI companies, leading requirement discussions, solution consultations, and technical engagements.
- Managed 25+ customer demonstrations, analyzing business requirements and mapping customer needs to appropriate product capabilities, call flows, SIP signaling, APIs, and solution workflows.
- Supported 20+ leads across the Voice AI industry through technical evaluation and onboarding, helping clients understand telephony and voicebot capabilities while resolving solution-related architectural requirements.
- Conducted and supported comprehensive requirements discovery across customer engagements, analyzing business workflows, technical environments, integration needs, telephony infrastructure, and deployment constraints.
- Translated customer requirements into robust solution scopes, technical documentation, architectural diagrams, and implementation considerations.
- Collaborated with technical and business stakeholders to validate proposed solutions, custom integrations, and deployment approaches.
- Presented solution workflows and technical concepts to prospective enterprise clients using demonstrations, architecture diagrams, and technical walkthroughs.
- Developed, and maintained Epicode's official developer documentation and API reference portal using Zudoku, structuring interactive OpenAPI documentation, SIP signaling workflows, and telephony middleware integration guides to accelerate technical evaluations and streamline developer onboarding for Voice AI partners.

Web Developer, Epicode Pvt. Ltd.

Jun 2024 – Apr 2025 | Udupi, India

- Developed microservices, REST APIs, and WebSocket applications in **Golang** and **Python** for real-time call metrics monitoring systems.
- Automated Call Detail Record (CDR) processing pipelines, formatting real time call events into requested schemas and dispatching payloads to client sites via webhooks.
- Developed and maintained corporate websites and developer documentation sites using WordPress and web frameworks.

Co-Founder & Managing Director, StatNFact Private Limited

Jul 2023 – Mar 2024 | Udupi, India

- Led solution pitching, business development, and bid management, securing incubation at Manipal GoK-Advanced Research Centre.
- Managed end-to-end delivery of patient management systems, bridging client stakeholders with engineering teams to ensure on-time delivery.

Associate Software Engineer, Manipal Technologies Limited (MTL)

Jan 2022 – Jun 2023 | Udupi, India

- Developed and integrated Digital Asset Management Systems utilizing ASP.NET MVC, C#, jQuery, and Angular.
- Led requirement analysis translating business needs into technical specifications; honored with **Special Achievement Award (Q3)**.

Trainee Software Engineer, Centre for Software Development, MAHE

Feb 2021 – Dec 2021 | Udupi, India

- Redesigned management systems to improve operational usability for HR departments and healthcare organisations; conducted security vulnerability testing.

KEY PROJECTS & TECHNICAL INITIATIVES

Telephony Middleware & Voice Automation

VoIP, SIP Signaling, Golang, Python, WebSockets

Technical Pre-Sales architecture and solution prototyping for telephony middleware. Demonstrated real-time SIP call signaling, WebSocket streaming, and API orchestration to integrate voice automation into enterprise communication infrastructure. Led and supported requirement capture, capacity planning, and solution scoping for client deployments.

Geospatial Analytics REST API & Visualization

Python, Flask REST API, Firebase, Geospatial Data

Engineered a modular REST API using Flask for automated analytical research outputs and interactive graphical visualization of geospatial OpenStreetMap datasets.

EDUCATION

M.Sc. in Information Science — Manipal School of Information Science, MAHE

CGPA: 9.43 / 10.0 | Jun 2019 – Aug 2021

B.Sc. in Physics, Computer Science & Mathematics — St. Aloysius College Autonomous

CGPA: 6.96 / 10.0 | Jun 2016 – May 2019

TECHNICAL & DOMAIN SKILLS

Pre-Sales & Solutions:	Product Demonstrations, Requirement Discovery, Solution Scoping, Capacity Planning, SOW & Proposals, Client Onboarding
Telephony & Systems:	VoIP, SIP Signaling, Telephony Middleware, PSTN Workflows, WebSockets, Webhooks, CDR Processing, OSI Architecture
Languages & Web:	Golang, Python, Flask, C#, ASP.NET MVC, JavaScript, WordPress Development, HTML5/CSS3, SQL, Pandas
Developer Experience:	Zudoku Developer Portals, OpenAPI / Swagger, REST APIs, Git, Linux, Postman
Certifications:	ISO 13485:2016 & ISO 9001:2015 Internal Auditing (TÜV Rheinland Group — Feb 2024)
